

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the fact that American women are nervous? How often do we hear the expression, "I am so nervous, it seems as if I should fly," or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night. I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me."

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger. Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women."

The Times' Daily Short Story.

Fear of the Night

[Copyright, 1905, by R. B. McClure.]

"Now, Tom," said the corporal of the guard to the recruit just from camp in the north, "you are going on picket in the face of the enemy. The Confederate picket will be only twenty rods away. Some bushwhacker may try to steal upon you, but there's not much chance of it. Don't get nervous and fire your musket in the air or call out. Don't shoot unless you see a man and unless that man is creeping up on you."

No man knows whether he is brave until he has been tested. Sometimes the test is not a fair one. It was not fair to test Williams' bravery in this way. In a quarrel by daylight with a single man into whose eyes he could have looked he would have fought hard and had no fear in his heart.

There was plenty for Williams to think of, and for a time he did not realize the loneliness of his position. Then it came with a long drawn sigh which swept through the trees and left a sort of wail in its wake. The wail sounded like the sighs of a thousand wounded men lying on a battlefield in the darkness, and it struck a chord in the heart of the man gripping his musket and peering about him. The babble of the creek had a cheery sound at first. Up home on the old farm there was a creek that bubbled just that way. He had gone down and bidden it goodbye before coming away. After that long gust of wind the creek seemed to change its notes, however. It scolded and complained. It fumed and fretted. It seemed to tell a story of a battle and of a thousand men crawling down to drink of its waters and turn them to crimson.

There was no walking to and fro. The man on post must simply stand there in the deep shadow under the beech tree and peer and listen and think and feel his nerves gradually becoming raw. At the end of three-quarters of an hour the recruit felt his teeth clicking together. In scorn and indignation he gave himself a blow on the chin and forced his thoughts back homeward.

"What's that?"
It was only coon or possum scampering over the dead leaves, but the noise was near by and sounded so like the footsteps of a man that the recruit felt his heart freeze within him. By and by the animal uttered a squeal and ran away, and then he knew what it was, but he was all of a tremble and the sweat starting out on his hands and forehead. He sat down under his trembling legs and fought himself a thousand recruits have done that same thing, but only a few have conquered. Let his nerves get the better of him in the lonely darkness, and his will must be of iron to chase away his

MAY HAVE TO PAY.

Equitable Liable for Hyde and Alexander Pensions?

New York, July 28.—The directors of the Equitable Life Assurance Society held two meetings yesterday, covering a period of three hours. The first was an adjourned session from Wednesday and the business transacted included the election of George F. Victor of this city and Ernest B. Kruttschnitt of New Orleans to the board. The directors listened to the reading of the minutes of the meetings of the society for some six months back, so as to familiarize themselves with recent conditions. The office of chairman was abolished, as previously announced.

The committee of pensions reported, and in almost every instance its recommendations were adopted. A number of pensions will be discontinued entirely and others reduced to 50 per cent. of salaries received by officials or employees at the time of the severance of their connections.

It was learned that, in addition to the pension of \$23,000 a year to the widow of Henry B. Hyde, there was voted at the same time a pension of \$18,000 to Mrs. James W. Alexander, the wife of a former president, to take effect upon the death of Mr. Alexander. These two items have been regarded as legal liabilities or annuities, in lieu of certain contracts waived by the founder of the society and by Mr. Alexander. The matter will be submitted to the Equitable special counsel, Austin G. Fox and Wallace S. MacFarlane.

James H. Hyde was not present at yesterday's meeting.

TRAMPS WILL BE FED.

Kalamazoo Women Leaves Sum of \$10,000 for Purpose.

Kalamazoo, Mich., July 28.—The will of Mrs. Almira Kramer, which was read in the presence of the heirs, astonished them by a trust fund of \$10,000 to be used to feed tramps.

Senator Burrows, who is named as trustee, will have direct charge of the money. All applications must be made by tramps at the police department, where each tramp will be presented with a ticket entitling him to a square meal at a restaurant. If the tramp wishes he may have a hot bath.

Senator Burrows drew up the will for the woman, who was 89 years of age when she died.

BRITISH FLEET TO THE BALTIC

Cruise Announced Which Looks Like Demonstration.

KAISER BUSY THERE NOW

Channel Squadron to Sail on August 20 for Scandinavian Waters—There to Cruise and Execute Manoeuvres, It Is Stated.

London, July 28.—The British Channel fleet is to make a cruise in the Baltic Sea. The cruise will take place in August and September, the date of departure from home waters being Aug. 20. The announcement is naturally connected by rumor with the present activities of the Emperor William in Scandinavian waters, but the Admiralty disclaims any political motive in choosing this unusual locality for naval exercises. It is stated that the fleet is simply going on a cruise to execute manoeuvres.

"ONLY BY REVOLUTION" CAN RUSSIA BE RIGHTED

Andrew D. White Outspoken in Regard to Crisis in History of Land of the Czar.

Ithaca, N. Y., July 28.—Former Ambassador to Russia and Germany Andrew D. White, the first president of Cornell University, in a lecture to the summer school students of Cornell on "Evolution vs. Revolution," said: "Russia can only now be righted by revolution, as her evolutionary processes are now too far disarranged to be capable of pulling her through her present crisis. The dams against modern thought held up by the aristocracy will be thrown down suddenly in the near future by the revolutionary reactionaries, and anarchy will break loose, all of which will lead to better things in the end."

NEW ATTACK ON JEWS.

Report in Kishinef of a Riot Near There—Several Killed.

Kishinef, Russia, July 28.—An attack on the Jews, in which several were killed and wounded, is reported to have occurred at Ruskia Novska (New Russia, probably a village near Kishinef). The number of fatalities has not been established.

CHINA MAY BALK.

Will Probably Refuse to Sign New Treaty With Us.

Washington, July 28.—Some doubt is expressed in official circles whether it will be possible to obtain China's consent to another treaty with the United States, providing for even the exclusion of Chinese laborers from this country. The state department is aware of ill feeling throughout China on the whole subject and now that the immigration treaty with China has been allowed to lapse without the negotiation of a new agreement, reports have reached here that China is inclined hereafter to refuse to sign any similar convention.

China's position appears to be that the exclusion of Chinese citizens from a friendly country is in itself a disgrace, and while she cannot ignore the laws of a foreign power providing for such exclusion she can refuse to sanction it or become party to it by concluding a treaty involving such restrictions.

A year ago, it is said, it would have been easy to conduct negotiations with China for the exclusion of Chinese laborers only. Now, however, it is understood, the Chinese officials are disposed to regard the signing of such a treaty beneath the dignity of their government.

The reason for the assumption at Peking of this new attitude is not quite clear to the officials here, though in some circles it is attributed to the influence of foreign powers.

DEAD NOW NUMBER 62.

Two More Fatalities Due to the Bennington Disaster.

San Diego, Cal., July 28.—The Bennington dead now number 62, there having been two more deaths—S. Tacata, a Japanese mess attendant, and H. A. Mettius, pay clerk.

The case of Mettius is peculiar. He was able to walk uptown after the accident and was thought not to have been badly injured. After his wounds had been dressed he was out on the streets. Suddenly he collapsed and had to be taken to the hospital on a stretcher. It is supposed that the shock and a weak heart were the cause of his death.

The flagship Chicago, with Admiral Godfrich aboard, arrived here early yesterday morning.

MRS. FISHER ASKS DIVORCE.

Schley's Sister Charges Husband With Abandonment.

Baltimore, July 28.—Mrs. Marie Antoinette Schley Fisher, sister of Admiral Winfield Scott Schley, and socially prominent, has sued her husband, Parks Fisher, for absolute divorce in Circuit Court No. 2.

The bill of complaint was filed by Senator Isidor Rayner and other attorneys. The ground on which the divorce is asked is abandonment for at least three years. Mr. Fisher is also charged with refusing to provide for his wife.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nerve has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored. We will be pleased to refer any one thus afflicted to many, who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longcliff hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 29, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family, could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nerve, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

E. H. BUNNELL, Lincoln, Ind.
Dr. Miles' Nerve is sold by your druggist who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
Miles Medical Co., Elkhart, Ind.

SCIENCE SIFTINGS.

Dr. William Royal Stokes and Dr. John S. Fulton of the Maryland board of health insist that they have discovered a curative serum for typhoid fever after a four years' search.

Sir William McGregor, governor of Newfoundland, will make an expedition into Labrador this summer for the object of fixing the longitude of some of the principal points there and making astronomical, botanical and other scientific investigations.

Solar activity showed a great increase during the year ending May 10, 1905, the sun not being free from spots for a single day. So says the British Astronomer Royal in his report. The group of sun spots seen early this year was the largest ever photographed at the observatory.

COLLEGE AND SCHOOL.

The state forester of Massachusetts urges the study of forestry in the public schools.

Dr. Nicholas Senn has been elected professor of surgery in the University of Chicago.

J. Walter Bingham, a well known lawyer of Chicago, has been added to the law faculty of the Cornell university.

Alexander J. Wurtz of Pittsburg has been appointed head of the department of electrical practice in the Carnegie Technical schools at Pittsburg.

Dr. Herbert Putnam, librarian of congress, says the plans for the new library of the University of California indicate that that library will be the best in all American colleges.

An Organ Grinder Laid.

Organ grinders in Verriers, Belgium, are by law compelled to appear every morning before the police superintendent and play their instruments. The organs which chance to be out of tune must be set in order before a license to play on the streets will be granted.

Britain's Oldest Postoffice.

The oldest postoffice in Great Britain is to be seen in the little Cheshire village of Motham. The building dates back to the sixteenth century and has the figures 1594 over the doorway.

Salt Fish In Naples.

Salt fish that has been well soaked is carried through the streets of Naples on little donkey drays, each piece of perhaps twelve inches long and four wide, doubled together, and in the fold is stuck a spray of bright gillflowers. Each piece is entirely separated from any other.

FEVER DEATH LIST GROWS

New Orleans Residents Now Thoroughly Aroused.

TEN MORE FATAL CASES

Total Deaths to Date 42, and Total Number of Cases Reported 185
—Fruit Ships Sent to Mobile.

New Orleans, July 28.—Official report was made yesterday of 12 new cases of yellow fever and six deaths occurring in the preceding 24 hours. Of the 12 new cases nine are Italians.

The health authorities, after a study of the locality, expressed the opinion yesterday that there was still hope of eradicating the disease before fall and that in any event, with the precautions being taken, a serious epidemic was entirely out of the question.

As a result of the decision of the state board of health to make the six-day detention immediately effective, four fruit ships bound to New Orleans have been ordered to Mobile, which is understood to be willing to receive them.

One case of yellow fever has appeared at a cannery, five miles from Fort St. Philip, 60 miles below the city. It is that of an Italian woman who escaped from the French market district. Lieutenant-Colonel Maus, U. S. A., has returned from the post. There is no present intention to move the garrison. There is no fever at the post. Italian societies are joining with priests of their nationality in efforts to aid the authorities.

The publications of deaths and cases has not been made but the reports are open to inspection and the health officials are mapping all localities and promptly screening them.

Patients are being received at the emergency yellow fever hospital. Accommodations for 75 cases have been provided. These accommodations will be steadily increased.

TRADES RESPOND.

Chicago Reciprocity Meet Is Promising Well.

Denver, Col., July 28.—J. S. Gwinn, secretary of the National Livestock Association, says encouraging returns are pouring in from the invitations sent to the stock organizations to attend the reciprocity conference in Chicago on Aug. 16 and 17.

He also has received word from Alvy H. Sanders, chairman of the reciprocity committee, that fully 6,000 responses have been received at Chicago from the various prominent trade organizations and individuals who intend to be present.

"Surely, agricultural America will awaken to the fact," said Secretary Gwinn, "that a serious menace to our prosperity impends in the shape of the new European policy, and an appeal is made to all who have the interests of our producing class at heart to co-operate in making the Chicago conference the starter of an agitation which will be heard in the District of Columbia."

"Notice has been served upon us in March next the leading products of American farms will be subjected to such excessive duties in German markets as to practically prohibit our competitive trade. In 1904 we sold Germany products to the extent of \$216,000,000 in

15 YEARS OF TORTURE

Itching and Painful Sores Covered Head and Body.

CURED IN WEEK BY CUTICURA

"For fifteen years my scalp and forehead was one mass of scabs, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days, my head was as clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week. (Signed) H. B. Franklin, 717 Washington St., Allegheny, Pa."

value, and got from her \$106,000,000 of her products.

"That trade was secured under the commercial agreement of July 31, 1900, authorized by the Dingley bill, which opened the German market for American goods. Such a market is surely worth keeping, and I would like to see it expand."

LEFT THEIR PLUNDER.

Burglars Frightened Away by a Young Bull Dog.

Burglars entered the house of C. G. Niles of Burlington Monday night between 8 and 9 o'clock and secured a lot of plunder, but carried away nothing as they were probably frightened by the barking of a dog. Mr. Niles was the only one in the house at the time and heard no sound. The young bull dog which is owned by Mr. Niles barked loudly several times and this is supposed to have frightened the burglars. Mr. Niles could not understand what made the dog bark and punished him to make him keep quiet.

The burglars entered the house by climbing a lilac bush to a shed and then removing a screen from a bedroom window. They rifled drawers and wardrobes and secured a quantity of clothes, a couple of watches, a clock, etc., all of which was later found outside the house. Under a shaving mug in one of the rooms was \$81 but the thieves did not discover this.

The tumbled rooms were discovered but it was thought that some one had been playing jokes and it was not until Tuesday morning that Mr. Niles became aware that a burglary had been committed. He discovered a watch in the yard while on the way to feed his horses and this led to an investigation. As no property was stolen the matter was not reported to the police.

Poor Roads in Vermont.

A. C. Rice and family passed through Burlington Wednesday afternoon on an automobile trip from Worcester, Mass., to Malone, N. Y. The party reached the city early in the afternoon and left on the Vermont for Plattsburgh. Mr. Rice drives a large Rambler car. The party left Worcester at eight o'clock last Saturday morning. They report very bad roads from Fitchburg north, especially in this state, where the roads were so muddy that fast automobilism was almost an impossibility.

Oddities of Color.

One would scarcely imagine black to be more visible in the darkness than white, yet the discolored sails of the fishing smack are seen at a greater distance than the snowy spread of the yacht, and the darker the color the more distinctly are the sails to be seen.

Eastern Pennsylvania.

The deed for what is now eastern Pennsylvania, given by the Duke of York to William Penn, is for the term of 10,000 years at 5 shillings rent.
